

ULTRA QUIET CPU COOLER

CNPS80F

Intel Socket LGA 1155/1156/775 CPUs
AMD Socket FM2/FM1/AM3/AM2+/AM2 CPUs

FEATURES

- ▶ Tilt fin design
- ▶ Optimized heat dissipation structure
- ▶ Minimized noise 80mm FSB fan
- ▶ Compact light size
- ▶ Easy installation

OVERVIEW

Minimized noise 80mm FSB fan

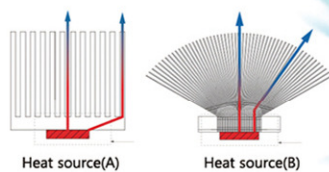

Compact light design

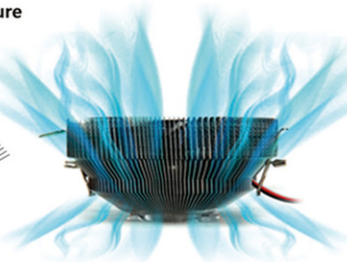

Easy installation

※ Optimized Heat Dissipation Structure

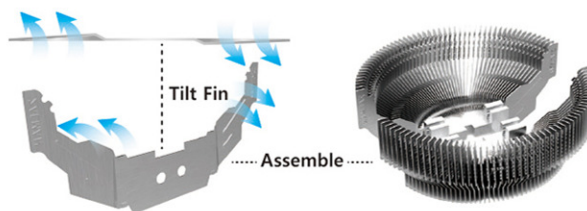

1) **FHS(Flower Heat Sink) type** heat transfer Simplified and more direct link to the surface for broader heat dissipation area and more efficient cooling.

2) **Down blowing type design** Through emitting the air straight from the fan to the mother board, it cools down not only the CPU but also the components around it.

※ Tilt Fin Design

Optimized the angle by tilting the fin, helps to increase the airflow , minimize the noise.

SPECIFICATIONS

Material	Pure Aluminum
Dimensions	102.5(L) x 98.7(W) 48.4(H)mm
Weight	198g
Heatpipe	80mm
Bearing type	FSB (Fluid Shield Bearing)
Fan rpm	2,500 rpm ±10%
Noise Level	23.8dBA
